

## Marie-Christine Skvorc - CSR Consultant

**Entrepreneur at heart** and with a rich professional background in the fashion and distribution industry, I actively participate in the development of a **more ethical and environmentally friendly** fashion by proposing innovative solutions in the interest of stakeholders. Having lived in several countries, I'm adaptable and thrive in an international environment.

Passionated by Social Responsibilities, as a trainer and a manager, I have always taken CSR issues into account when making decisions, which led me a few years ago to embark in a new challenge that earned me a Masters in Project management.

**Coach and consultant**, I enjoy working along with dynamic young brands in the fashion and luxury goods industry **shaping their CSR strategy** and action plan through a collaborative process.

Would you like to set up one of these projects?
